\*University Core Courses (Areas I, II, III, and IV):

See the back of this sheet for more information. You must complete the requirements in each area. Please check with your advisor about specific recommendations on courses. For example, the MCAT will be including questions from Psychology and Sociology.

Some professional schools require that you have had Public speaking. Some require Animal Nutrition.

\*\*Microbiology course information

Biology majors cannot receive Area V (major credit) for **both** BIOL 2010/2011 and BIOL 3010/3011. Do not schedule BIOL 3010/3011 without talking to your advisor if you have already taken a sophomore level Microbiology course.

Biology Electives:

Students must take 3000 or 4000 level biology courses as their biology electives. A maximum of 4 hours of BIOL 4932 Directed Research may count towards your Biology elective requirements. Check with your advisor before scheduling your biology electives. One of your Biology electives must be WI (see writing intensive course requirements), and three courses must have a lab. Up to 8 credit hours of Marine Environmental Sciences Consortium courses (MESC, taught at Dauphin Island Sea Lab) or Organization of Tropical Studies courses (OTS, taught in Costa Rica or South Africa) may be substituted for no more than 8 credit hours of biology electives. If MESC or OTS courses are used for biology elective credit, the student may not use BIOL 4800, 4803 or 4932 for biology elective credit; MESC and OTS course offerings vary from semester to semester.

\*\*\*Writing Intensive Course Requirements (Beginning Fall 2009)

Students must take three writing intensive courses in addition to English Composition I and II. At least two of the Writing Intensive courses must be in your major discipline. All biology majors are required to take BIOL 4952 Capstone as one of these courses.

\*\*\*For the second course, BIHS students may take WI sections of BIOL 4070/4071 Immunobiology, BIOL 4200/4201 Ecology, BIOL 4010/4011 Medical Microbiology, BIOL 4600/4601 Molecular Genetics, or BIOL 4030/4031 Virology. For your third upper level WI course you may take another of the biology WI courses *or* you may take any other writing intensive course (WI). Writing intensive courses are designated with a “WI” in the class schedule.

\*UNIVERSITY CORE CURRICULUM (Areas I, II, III, and IV) <http://www.aum.edu/academics/core-curriculum>

See the **current** AUM Undergraduate Catalog for **approved** university (Areas I, II, III, and IV) core courses and the hours required in each of the four areas. Students must make a C or better in English Composition. Students must complete a 6-hour sequence in either literature or history. Students must take at least one course in history and one course in literature.

<b>AREA I: Written Composition ( 6 Hrs of ENGL):</b>

MATH* (2 or more courses required): See other side for specific math course requirements.	
<b>*Explanation of Math Core Courses:</b>	
The math course requirements are based upon both University and Major (Area V) requirements. MATH 1150 Precal. Algebra and MATH 1510 Survey of Calc, or MATH 1150 Precal. Trig. and MATH 1610 Cal I, and BIOL 2200 or MATH 2200 Biostatistics/MATH 2200 (this course counts for both your statistics course and your computer literacy course) Physics requires that you have either MATH 1510 Survey of Calculus or MATH 1610 Calculus I. You must either place into Calculus or take the prerequisite Math courses. You may take the highest level Math course that you are qualified to take. That is, if you can start with Cal I you do not have to take the lower level prerequisites for Cal I.	
<b>AREA IV: History, Social and Behavioral Sciences (12 Hrs):</b>	
<b>HISTORY (HIST):</b> Students must take a 2 History sequence and 1 Literature or 1 History and a 2 Literature sequence. (See Area II). Take at least 1 history. If you want to take your sequence in history instead of literature choose from one of the two sequences below.
